Good day Ms. Hesse,

It is time! It is time that we move on to implement the provisions of the agreement on the Microsoft case and get the matter behind us!.

It is time! It is time to move on and say to those people that have nothing better to do than figure out how to filch money out of the pockets of those who have deep pockets. Get over it!

It is time! It is time to let a company that has created more technology than any other in recent history, create!

It is time! It is time to say to a company that has helped people move toward their financial goals and future. Keep helping!

It is time! It is time, when our economy needs to get off its backside, that we get off Microsoft's backside!

It is time! It is time that we reward innovation, rather than throw it in a courtroom!

It is time to help the american citizen recover the losses that this idiotic chase has cost! Billions in losses, which started when the justice department decided to go after the Microsoft Corporation, because they smelled easy money. This is not about justice! It's about cash money! Microsoft has it, the government wants it! Everyboby sees an easy mark here!

Let's get going! Implement the agreement!

Thank You,

Stan Brown 253-927-6402
